CH Chhabil dass public school, Ghaziabad(2018-2019, 93.8%)

## POSTION OF RESPONSIBILTY

### Team Lead, SIH 23

| Sep 23 - Dec 23

Led the initial team of six passionate individuals hailing from diverse backgrounds. Our team stood tall amongst the fiercest competition at the **Smart India Hackathon(SIH)** to secure a spot in the **grand finale**.

### Android Lead, GDSC

| Aug 23 - Present

Led the Android domain of Google Developer Student Clubs at our university. Responsible for the **Android Culture** at our University.

Initialized combined projects in the domains of Android, with the help of **GDSC** lead in our University.

### Publicity Head, A.E.T.E.

| Feb 24 - Present

As a Publicity Head at **Association of Electronics Engineering**, adept at spearheading promotional campaigns and fostering community engagement to elevate the organization's visibility and impact within the field.

### Event Organizer, TECHATHON, GDSC HBTU

| Mar 24

Versatile Event Organizer for **Techathon** by GDSC HBTU, adept at orchestrating successful hackathons, fostering collaboration with TECHNIKA, and driving innovation within the tech community.

### Organizer, Hacktober Fest 23

| Oct23 - Oct 23.

Our team created and maintained the open source repositories for Hacktober Fest 23.

Learn how to manage and organizes the event

### Team Lead, Venture Championship, E-cell HBTU

In my role as a team leader, I orchestrated collaborative efforts to optimize outcomes within resource constraints, securing a **top rank** in the preliminary two rounds **Runner's up** position in the final phase.

## EXPERIENCE

### BuildForBharat|Hackathon |ONDC

| Jan 24 - Feb24

- Participated in **BuildForBharat** Hackathon, a dynamic and collaborative event focused on innovative solutions for optimizing the database for merchant and customers in terms of pin code.
- Successfully validated the solution through rigorous testing, ensuring robustness and efficiency..

### Approids | Android Development Intern

(Remote) | Sept 23 - Oct 23

- Created a user specific android app using many technologies like Firebase, API, etc.
- Collaborated intensively with their team to craft Full Stack Mobile application.

### Community member as an Android Developer, GDSC

| July 22 - Present

- I have gained a wealth of knowledge and showcase my proficiency in Kotlin and Flutter, highlighting my track record of delivering high-quality applications.

### Open Source Contributor, Hactober Fest 22

| Oct 22- Oct 22

- I have successfully completed all my contributions to Hacktober Fest. It was my first experience with any open source project.

## Certifications:

- [Approids | Internship.](#)
- [Data Structures and Algorithm, Coding Ninjas \(Excellence\)](#)
- [Introduction to C++, Coding Ninjas \(Excellence\).](#)
- [DIGITAL MARKETING, HubSpot Academy.](#)
- [Sales, Hubspot Academy](#)
- [Logosio, IIT BHU](#)

## Projects

### KAMRE

Drove the creation of an intuitive room rental app, facilitating smooth interactions between property owners and tenants.

### NEWSaMANIA

Latest News delivering application using API, Retrofit and other complimentary libraries in **KOTLIN**.

### Service Founder(Hackathon Project)

Designed a project for optimizing the database for merchant and customers in terms of pin code matching.

### DevByte

A YouTube video delivering app. I added the YouTube videos of the Google's android development channel in my app.

### Digital Alarm Clock

We engineered a digital alarm clock with customizable features using the **8086** microprocessor, showcasing its versatility in real-world applications.

### IR PROXIMITY SENSOR

We developed an innovative IR proximity sensor leveraging advanced technology for precise motion detection.
